- ▲ University of California/Irvine
- ▲ University of Alberta
- ▲ Indian Institute of Management
- ▲ Nayang Technological University

Business Expert Press Digital Libraries: applied, concise ebooks, written by experts

The Digital Libraries from Business Expert Press are easy-to-use (and easy-to-own) reference tools for students with entrepreneurial interests who are considering careers in business.

“The decision to purchase was driven by the quality of the content and the lack of DRM and other types of restrictions on the use of the content. UC Merced is revising its undergraduate curriculum in business and planning to offer an MBA. The purchase of BEP was made in anticipation of future use in these programs.”

— **Jim Dooley**
Business Librarian
University of California/Merced

DIGITAL LIBRARIES

A Leading Resource for Business Education

“Students at the UCLA Anderson School of Management have access to many databases, journals, research monographs and other data sources. What I have long felt we lacked, and what BEP provides, are short, applied books by academic thought leaders, aimed specifically at advanced business students, which support their coursework and professional exploration.”

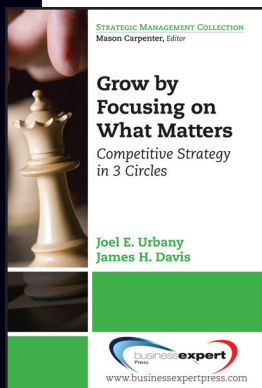

— **Michael Oppenheim**
Collections & Reference Services Librarian
University of California/Los Angeles

www.businessexpertpress.com

“Business/management represents the largest undergraduate concentration at UNC/Greensboro, and our second largest masters program. Business Expert Press’s e-books give these students content that they need, when they need it, without any restrictions to limit their use. So lots of business students, 24x7 access to content written expressly for them, and no complex licenses to negotiate — it was an easy decision to add the Digital Libraries to our collection.”

— **Beth Bernhardt**
Electronic Resources Librarian
University of North Carolina/Greensboro

EBOOKS FOR BUSINESS STUDENTS

The BUSINESS EXPERT PRESS DIGITAL LIBRARIES are curriculum-oriented ebooks for baccalaureate and masters candidates, written by experts who translate their real-world business experience into accessible, issues-based texts. More than superficial chapters in high-priced textbooks or data-saturated articles in expensive journals, these are experience-based course readings and reference materials built for students advancing towards careers in business.

2010 Digital Library: 50 books, list price \$3,000

2011 Digital Library: 60 books, list price \$3,600

2012 Digital Library: 50 books, list price \$3,000

Discounts are available for purchases of multiple Digital Libraries.

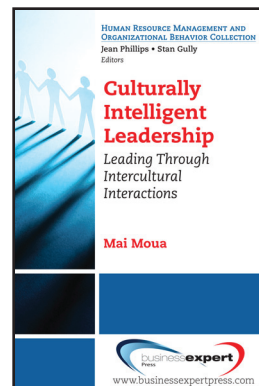

“The UNC library has purchased the Business Expert Press eBook collection from the beginning because these focused, up-to-date, and authoritative treatments fill important niches in the field. The titles also represent good value for a good price, while the lack of restrictive digital rights management features allow faculty and students to make maximal and easy use of these digital texts.”

— **Luke Swindler**

Social Sciences Bibliographer
University of North Carolina
Chapel Hill
