

***A Leading Resource for Business Education***

## ***Now Available: Topical Business Collections!***

Collections built around the subjects taught in today's business programs. Purchase these tightly-focused Collections and help your students get access to direct, practical descriptions of -- and helpful solutions to -- the challenges they'll have to address not just in the classroom but in the business world as well.

Each Business Expert Press collection is carefully managed by an academic thought leader who helps develop cohesive compilations of ebooks that follow the modern business curriculum. And each TBC has the same open access policies as the more comprehensive Digital Libraries: unlimited concurrent usage, unrestricted printing as well as downloading, and uploading to learning management systems; and a simple, one-time payment process (no licenses to execute, nor any ongoing subscription or platform fees). Free MARC records are also provided.
